Child Protection and Safeguarding Policy

Safeguarding Statement

St Joseph's Catholic Primary School recognises our moral and statutory responsibility to safeguard and promote the welfare of all pupils and expects all staff, governors, and volunteers to share this commitment. We recognise that all children, regardless of age, disability, SEND, gender reassignment, race, religion or belief, sex, or sexual orientation have an equal right to protection from all types of harm or abuse. We endeavour to provide a safe and welcoming environment where children are respected and valued. We are alert to the signs of abuse and neglect and follow our procedures to ensure that children receive effective support, protection, and justice. We listen to our pupils and take seriously what they tell us, children are aware of the adults they can talk to if they have a concern. When there are concerns for a child's welfare, we may need to share information and work in partnership with other agencies. We will ensure concerns are discussed with parents/carers first unless we have reason to believe that by doing so would be contrary to the child's welfare. This Child Protection and Safeguarding policy underpins and guides our safeguarding procedures and protocols.

Terminology

Safeguarding and promoting the welfare of children is defined as:

- protecting children from maltreatment,
- preventing impairment of children's mental and physical health or development,
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- taking action to enable all children to have the best outcomes.

Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

When using the term 'staff', this will refer to all those working for or on behalf of the school, full or part time, temporary or permanent, in either a paid or voluntary capacity.

Child includes everyone under the age of 18 or 25 if a care leaver.

Parents refers to birth parents and other adults who are in a parenting role, for example step-parents, foster carers, adoptive parents and LA corporate parents.

Safeguarding Legislation and Guidance

The following safeguarding legislation and guidance has been considered when drafting this policy:

- [Education Act 2002 Section 175 \(maintained schools only\)](#)
- [Education Act 2002 Section 157 \(Independent schools incl Academies and CTC's\)](#)
- [The Education \(Independent School Standards\) \(England\) Regulations 2003](#)
- [The Safeguarding Vulnerable Groups Act 2006](#)
- [Teachers' Standards \(Guidance for school leaders, school staff and governing bodies\)](#)
- [Working Together to Safeguarding Children](#)
- [Keeping Children Safe in Education](#)
- [Information Sharing 2024](#)
- [What to do if you're worried a child is being abused](#)
- [Filtering and monitoring standards in schools and colleges \(DfE\)](#)

4. Policy Principles, Aims and Values

The welfare of the child is paramount:

- All children regardless of age, gender, culture, language, race, ability, sexual identity, or religion have equal rights to protection, safeguarding and opportunities.
- We recognise that all adults, including temporary staff, volunteers, and governors, all have a duty to protect our pupils from harm and have an equal responsibility to act on any suspicion or disclosure that may suggest a child is at risk of harm.
- All staff believe that our school should provide a caring, positive, safe, and stimulating environment that promotes the social, physical, mental wellbeing and moral development of the individual child.
- Pupils and staff involved in child protection issues will receive appropriate support and supervision.

This policy aims to:

- Raise the awareness of all staff of the need to safeguard children.
- Provide all staff with guidance on the procedures they should adopt if they suspect a child/young person may be experiencing, or be at risk of experiencing, harm. Including (by DSL/DDSL) consideration to the use of appropriate assessments, resources, and agency support.
- Provide an environment in which children and young people feel safe, secure, valued, and respected, and that they will be listened to should they make a disclosure.
- Raise awareness that abuse can be both Familial and/or Contextual; and abusers can be both adult/s to child/ren or child/ren to child/ren.
- Demonstrate the school's commitment regarding safeguarding and child protection to pupils, parents, and other partners.
- Provide a systematic means of monitoring children known or thought to be at risk of harm.
- To emphasise the need for high levels of communication between staff and the designated safeguarding leads internally and with external agencies and partners, including our contribution to assessments, referrals, and support plans.
- To develop and promote effective working relationships with other partnership agencies, particularly Children's Social Care, Police and Health.
- Support the child's development in ways that will foster security, confidence, and independence.
- Ensure that all staff working within our school who have substantial access to children have been checked as to their suitability, including verification of their identity, qualifications, and a satisfactory DBS check (according to guidance), and a single central record is kept for audit.
- Provide clarity and expectations on professional behaviours and code of conduct including lone working requirements.

Supporting and Protecting Children:

- We recognise that a child who is abused or witnesses' violence may feel helpless and humiliated and could experience barriers to making a disclosure. We understand that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn as well as exhibiting signs of mental health problems. We understand the impact on a child's mental health, behaviour, and education from familial and/or contextual abuse. School may not only provide stability in the lives of children who have been abused or who are at risk of harm, but it plays a significant part in the prevention of harm to our children.

Our school will support all children by:

- encouraging self-esteem and self-assertiveness, through the curriculum as well as our relationships, whilst not condoning aggression or bullying (incl. cyber bullying).
- promoting a caring, safe, and positive environment within the school and providing children with good lines of communication with trusted adults, supportive friends, and an ethos of protection.
- responding sympathetically to any requests for time out to deal with distress and anxiety.
- offering details of helplines, counselling, or other avenues of external support.
- liaising and working together with all other settings, support services and those agencies involved in the safeguarding of children.
- notifying Childrens' Social Care as soon as there is a significant concern.
- ensuring appropriate information is shared confidentially at key transition points in a child's journey to ensure continued support (incl. school medical records).
- children are taught to understand and manage risk through our Personal, Social, Health and Economic (PSHE) education and Relationship and Sex Education (RSE) and through all aspects of school life. This includes online safety.
- by accessing and utilising the necessary resources, guidance and toolkits to support the identification of children requiring mental health support, support services and assessments.
- reassuring victims that they are being taken seriously and that they will be supported and kept safe.

The school community will protect children by:

- work to establish and maintain an ethos where children feel secure, are encouraged to talk, and are always listened to.
- ensure that all children know there are adults in the school whom they can approach if they are worried or in difficulty.
- include regular consultation with children, parents, and staff, gathering their voice.
- including safeguarding across the curriculum to equip children with the skills they need to stay safe from harm and to know to whom they should turn for help; in particular this will include anti-bullying work, information about child on child abuse (sexual harassment and sexual violence, consent), online-safety, road safety, pedestrian and cycle training; provide focussed activities to prepare key year groups for transition to new settings and/or key stages e.g. more personal safety/independent travel; and
- ensure all staff, pupils and parents are aware of school guidance for their use of mobile technology and the safeguarding issues around the use of mobile technologies, including the use of social media and their associated risks have been shared.

5. Roles and Responsibilities

We will follow the statutory guidance as set out in the latest Keeping Children Safe in Education (and associated documents and guidance), adhering to the roles, responsibilities and expectations identified for:

- Governing bodies, proprietors, and management committees.
- The headteacher
- The designated safeguarding lead
- The deputy designated safeguarding lead/s
- Staff

Keeping Children Safe in Education

Governing bodies, proprietors and management committees:

All members of The Governing Body understand and fulfil their responsibilities, namely, to ensure that there is a Child Protection and Safeguarding policy together with a Staff Behaviour policy (Code of Conduct).

Governing bodies and proprietors should ensure that all governors and trustees receive appropriate safeguarding and child protection (including online) training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place in schools and colleges are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.

Roles and responsibilities will include:

- Child protection, safeguarding, recruitment and managing allegations policies and procedures, including the staff behaviour policy (code of conduct), are consistent with the Local Authority and statutory requirements, are reviewed annually and the Child Protection and Safeguarding policy is publicly available on the school website or by other means.
- Ensures that all staff including temporary staff and volunteers are provided with the school's Child Protection and Safeguarding policy and staff Code of Conduct.
- All staff have read Keeping Children Safe in Education Part 1* and Annex B and those mechanisms are in place to assist staff in understanding and discharging their roles and responsibilities as set out in the guidance. (* or Annex A if not working directly with children)
- The school operates a safer recruitment procedure that includes statutory checks on staff, disqualification by association regulations and by ensuring that there is at least one person on every recruitment panel who has completed safer recruitment training.
- The school has procedures for dealing with allegations of abuse against staff (including the Headteacher), supply staff, volunteers and against other children and that a referral is made to the DBS if a person in regulated activity has been

dismissed or removed due to safeguarding concerns or would have had they not resigned.

- A member of the Governing Body/Board, usually the Chair, is nominated to liaise with the Local Authority on Child Protection issues and in the event of an allegation of abuse made against the Headteacher.
- A member of the senior leadership team has been appointed as the Designated Safeguarding Lead (DSL) by the Governing Body/Board who will take lead responsibility.
- On appointment, the DSL and deputy(ies) undertake appropriate Level 3 identified training offered by the Local Authority or other provider every two years.
- All other staff have safeguarding training updated as appropriate; but at least annually.
- At least one member of the governing body has completed safer recruitment training to be refreshed at least every five years.
- Children are taught about safeguarding (including online safety) as part of a broad and balanced curriculum covering relevant issues to meet their needs including children who have recognised vulnerabilities.
- Appropriate safeguarding responses are in place for children who go missing from education.
- Appropriate online filtering and monitoring systems are in place.
- Enhanced DBS checks at the appropriate level are in place for all Governors.
- Any weaknesses in Child Protection are remedied immediately.

The Headteacher:

The Headteacher, supports the governing body, designated safeguarding lead, deputies, staff and volunteers to fulfil their roles and responsibilities

Roles and responsibilities will include:

- Ensuring the Child Protection and Safeguarding policy and procedures are implemented and followed by all staff
- Enabling sufficient time, training, support, resources, including cover arrangements where necessary, is allocated to the DSL and deputy(ies) DSL(s) to carry out their roles effectively,
- Supporting and promoting a safeguarding culture and ethos in school so that child/ren's wishes and feelings are considered when determining what action to take and what services to provide.

- Ensuring systems are in place for children to express their views and give feedback.
- Following the whistleblowing policy and procedures if an allegation is made against a member of staff supply staff or volunteer all staff, including liaising with the Local Authority Designated Officer (LADO) and referring anyone who has harmed or may pose a risk to a child to the Disclosure and Barring Service.
- That pupils are provided with opportunities throughout the curriculum to learn about safeguarding, including keeping themselves safe online.

The Designated Safeguarding Lead (DSL):

The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety). This should be explicit in the role holder's job description.

Roles and responsibilities will include:

- Availability – being available during school hours
- Manage referrals – to e.g. Children's Social Care, Channel programme, Disclosure and Barring service, the Police
- Working with others – e.g. a point of contact with safeguarding partners, a source of support and advice for staff, to promote supportive engagement with parents and/or carers and the SLT/Governing body
- Information sharing and managing the child protection files
- Raising Safeguarding and Child Protection Awareness
- Updating training, knowledge and skills required to carry out the role of DSL
- Providing support to staff
- Holding and sharing information
- Overseeing and acting upon filtering and monitoring reports and checks to these systems

The Deputy Designated Safeguarding Lead/s (DDSL):

Is/are trained to the same standard as the Designated Safeguarding Lead and, in the absence of the DSL, carries out those functions necessary to ensure the ongoing safety and protection of pupils. In the event of the long-term absence of the DSL the deputy will assume all of the functions above.

Whilst the activities of the designated safeguarding lead can be delegated to appropriately trained deputies, the ultimate lead responsibility for child protection, is set out in previous section and, remains with the designated safeguarding lead, this lead responsibility should not be delegated.

Staff:

Roles and responsibilities will include:

- maintaining an attitude of 'it could happen here' where safeguarding is concerned.
- identifying concerns early, providing help for children, promoting children's welfare and preventing concerns from escalating.
- providing a safe environment in which children can learn.
- knowing what to do if a child tells them they are being abused, exploited, or neglected.
- being able to reassure victims that they are being taken seriously and that they will be supported and kept safe.
- recognising the barriers for children when wanting to make a disclosure (verbal or non-verbal)
- identifying children who may benefit from early help, (providing support as soon as a problem emerges) and the part they play in these support plans.
- raising any concerns for a child following the schools safeguarding policies and procedures
- being aware of local authority referral processes and supporting social workers and other agencies following any referral.
- adhering to Teachers' Standards 2012 - that teacher (which includes headteachers) should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.
- Being aware of systems within school which support safeguarding e.g. safeguarding policy, behaviour policy, code of conduct, Child Missing Education, online filtering, and monitoring.
- Attending regular safeguarding and child protection training.
- Recognising that children missing, or absent from education can act as a vital warning sign to a range of safeguarding issues including neglect, sexual abuse and child sexual and criminal exploitation.

6. Confidentiality

- Our school recognises that in order to effectively meet a child's needs, safeguard their welfare and protect them from harm the school must contribute to inter-agency working in line with Working Together to Safeguard Children and share information between professionals and agencies where there are concerns.
- All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the Data Protection Act 2018 is not a barrier to sharing information where the failure to do so would place a child at risk of harm.
- All staff must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or wellbeing.
- However, we also recognise that all matters relating to child protection are personal to children and families. Therefore, in this respect they are confidential and the Headteacher or DSLs will only disclose information about a child to other members of staff on a need-to-know basis.
- We will always undertake to share our intention to refer a child to the Local Authority Children's Front Door with their parents /carers unless to do so could put the child at greater risk of harm or impede a criminal investigation. If in doubt, we will contact the Front Door consultation line.
- In line with KCSiE all children's safeguarding files will be kept confidential and stored securely.

7. Recognising and Responding to Safeguarding Concerns

Recognising: Any child, in any family, in any school, could become a victim of abuse. Staff should always maintain an attitude of **"It could happen here"**. We also recognise that abuse, neglect and safeguarding issues are complex and are rarely standalone events that can be covered by one definition or label. Staff are aware that in most cases multiple issues will overlap one another.

- Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in the family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. They may be abused by an adult or adults or by another child or children.
- Abuse and Neglect may also take place outside of the home, often referred to as contextual safeguarding, and this may include (but not limited to), sexual exploitation criminal exploitation, serious youth violence, radicalisation.
- Staff are aware that behaviours linked to drug taking, alcohol abuse, truanting and sexting put children in danger and that safeguarding issues can manifest themselves via child-on-child abuse.

Further information about the four categories of abuse; physical, emotional, sexual and neglect, (familial and contextual) and indicators that a child may be being abused can be

found in appendices 1 – 17 of this policy and in Keeping Children Safe in Education Part 1/Annex A/Annex B. There are also several specific safeguarding concerns that we recognise our pupils may experience or be exposed to.

<ul style="list-style-type: none"> ● child missing or absent from education ● child missing from home or care ● child sexual exploitation (CSE), child criminal exploitation (CCE) ● bullying including cyberbullying ● domestic abuse ● drugs ● fabricated or induced illness ● faith abuse ● female genital mutilation (FGM) ● forced marriage ● gangs and youth violence 	<ul style="list-style-type: none"> ● gender-based violence/violence against women and girls (VAWG) ● mental health difficulties ● private fostering ● radicalisation ● youth produced sexual imagery (sexting) ● teenage relationship abuse ● trafficking ● child on child abuse ● upskirting ● serious violence ● sexual harassment
--	---

- There will be occasions when staff may suspect that a pupil may be at risk but have no ‘real’ evidence. The pupil’s behaviour may have changed, it is useful to remember that behaviour is communication and may be revealing confusion or distress, without sharing this verbally.
- We recognise that the signs may be due to a variety of factors, for example, a parent has moved out, a pet has died, a grandparent is very ill, or an accident has occurred. However, they may also indicate a child is being abused or is in need of safeguarding.
- In these circumstances staff will try to give the child the opportunity to talk. It is fine for staff to ask the pupil if they are OK or if they can help in any way.

Responding: Following an initial conversation with the pupil, if the member of staff remains concerned, they should either discuss their concerns with the DSL and in all case make a record on the schools recording system Records should include:

- a clear and comprehensive summary of the concern.
- details of how the concern was followed up and resolved.
- a note of any action taken, decisions reached and the outcome.

All concerns however small must be recorded and shared with the DSL as this information could provide the ‘missing’ piece of the bigger picture of the lived experience for the child.

1. Offer reassurance, listen and take seriously what is being said. Never promise to keep secrets or be persuaded by the child, young person or their family not to take action.

2. Recognise that it is not your job to investigate, verify what is being said or examine the individual disclosing; this is the statutory responsibility of the child protection services and/or the Police. However, it is important to ascertain relevant information.

3. Explain the process to the individual; that you will need to pass this information on, to whom, the reasons why and possible actions.

4. Any concerns will be recorded, including the child's voice, body map (if necessary) and other relevant information in line with our schools recording procedure. Concerns may also be shared with the DSL/DDSL verbally, these conversations will also be recorded in writing

If a pupil discloses to a member of staff

- We recognise that it takes a lot of courage for a child to disclose they are being abused. They may feel ashamed, guilty or scared, their abuser may have threatened that something will happen if they tell, they may have lost all trust in adults or believe that what has happened is their fault. Sometimes they may not be aware that what is happening is abuse.
- A child who makes a disclosure may have to tell their story on a number of subsequent occasions to the police and/or social workers. Therefore, it is vital that their first experience of talking to a trusted adult is a positive one.

During their conversation with the pupil staff will;

- listen to what the child has to say and allow them to speak freely.
- remain calm and not overreact or act shocked or disgusted – the pupil may stop talking if they feel they are upsetting the listener.
- reassure the child that it is not their fault and that they have done the right thing in telling someone.
- not be afraid of silences – staff must remember how difficult it is for the pupil and allow them time to talk.
- take what the child is disclosing seriously.
- ask open questions and avoid asking leading questions.
- avoid jumping to conclusions, speculation or make accusations.
- not automatically offer any physical touch as comfort. It may be anything but comforting to a child who is being abused.

- avoid admonishing the child for not disclosing sooner. Saying things such as 'I do wish you had told me about it when it started' may be the staff member's way of being supportive but may be interpreted by the child to mean they have done something wrong.
- tell the child what will happen next, that they cannot keep secrets and that information will be shared to ensure the right level of support is given.

Notifying Parents

- The school will normally seek to discuss any concerns about a pupil with their parents. This must be handled sensitively and normally the DSL/DDSL will contact the parent in the event of a concern, suspicion, or disclosure of abuse that the child has been harmed in some way.
- However, if the school believes that notifying parents could increase the risk to the child or exacerbate the problem, advice will first be sought from the Local Authority Children's Front Door.
- Where there are concerns about forced marriage or honour-based abuse parents should not be informed a referral is being made as to do so may place the child at a significantly increased risk. In some circumstances it would be appropriate to contact the police.

Making a referral

- Concerns about a child or a disclosure should be immediately raised with the DSL who will help decide whether a referral to the Local Authority Children's Front Door or other support is appropriate in accordance with The Local Authority Effective Support Guidance document.
- If school are uncertain about whether a concern raised should involve a direct referral the DSL or DDSL can contact the Professional Consultation Line within the Children's Front Door, the consultation will be based on no-names and will be with a duty social worker.
- If a referral is needed, the DSL should make this rapidly and have the necessary systems in place to enable this to happen. However, anyone can make a referral and if for any reason a staff member thinks a referral is appropriate and one hasn't been made, they can, and should, consider making a referral themselves.
- The child (subject to their age and understanding) and the parents will be told that a referral is being made, unless to do so would increase the risk to the child.
- If a child is in immediate danger or is at risk of harm a referral should be made to Children's Front Door and/or the police immediately. **Anybody** can make a referral.

- Where referrals are not made by the DSL and to ensure their oversight, the DSL should be informed as soon as possible.

Supporting our Staff

- We recognise that staff working in the school who have become involved with a child who has suffered harm or appears to be likely to suffer harm may find the situation stressful and upsetting.
- We will support such staff by providing an opportunity to talk through their anxieties with the DSLs and to seek further support as appropriate.

8. Children who are particularly vulnerable

St Joseph's Catholic Primary School recognises that some children are more vulnerable to abuse, neglect and contextual safeguarding concerns and that additional barriers exist when recognising abuse for some children. We understand that this increase in risk is due more to societal attitudes and assumptions or child protection procedures which fail to acknowledge children's diverse circumstances, rather than the individual child's personality, impairment, or circumstances.

In some cases possible indicators of abuse such as a child's mood, behaviour or injury might be assumed to relate to the child's additional needs or disability rather than giving a cause for concern. Or a focus may be on the child's disability, special educational needs or situation without consideration of the full picture. In other cases, such as bullying, the child may be disproportionately impacted by the behaviour without outwardly showing any signs that they are experiencing it.

Some children may also find it harder to disclose abuse due to communication barriers, lack of access to a trusted adult or not being aware that what they are experiencing is abuse.

Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled and has specific additional needs.
- has special educational needs (whether or not they have a statutory education, health and care plan).
- is a young carer.
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups.
- is frequently missing/goes missing from care or from home.
- is misusing drugs or alcohol themselves.
- is at risk of modern slavery, trafficking, or exploitation.

- is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse.
- has returned home to their family from care.
- is showing early signs of abuse and/or neglect.
- is at risk of being radicalised or exploited.
- is a privately fostered child.
- has an imprisoned parent.
- is experiencing mental health, wellbeing difficulties.
- is persistently absent from education (including persistently absent for part of the school day).
- is at risk of 'honour' based abuse such as Female Genital Mutilation or Forced Marriage

9. Whistleblowing

All institutions involved on a regular basis with children must be proactive and vigilant. If information about known or suspected sexual abuse is held by anyone in the institution, the information must be acted upon and proper investigation must take place, regardless of cultural, religious, educational, or societal norms and beliefs. There should be no exceptions to this requirement.

The Report of the Independent Inquiry into Child Sexual Abuse October 2022

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.

All staff should be aware of their duty to raise concerns, where they exist, about the management of child protection, which may include the attitude or actions of colleagues, poor or unsafe practice and potential failures in the school's safeguarding arrangements. If it becomes necessary to consult outside the school, they should speak in the first instance, to the Local Area Designated Officer (LADO) following the Whistleblowing Policy.

The NSPCC whistleblowing helpline is available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call: 0800 028 0285 line is available from 8:00 AM to 8:00 PM, Monday to Friday and email: help@nspcc.org.uk

Whistleblowing re the Headteacher should be made to the Chair of the Governing Body or Chief Executive Officer of a trust whose contact details are readily available to staff (as pertinent to setting).

10. Allegations against staff

All school staff should take care not to place themselves in a vulnerable position with a child. It is always advisable for interviews or work with individual children or parents to be

conducted in view of other adults. Guidance about conduct and safe practice, including safe use of mobile phones by staff and volunteers will be given at induction.

Suspension of the member of staff, excluding the Headteacher, against whom an allegation has been made, needs careful consideration, and the Headteacher will seek the advice of the LADO and a Human Resources Consultant in making this decision.

Staff, parents, and governors are reminded that publication of material that may lead to the identification of a teacher who is the subject of an allegation is prohibited by law. Publication includes verbal conversations or writing including content placed on social media sites.

11. Physical Intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is endangering themselves or others, and that always it must be the minimal force necessary to prevent injury to another person.

Such events should be recorded and signed by a witness.

Staff who are likely to need to use physical intervention will be appropriately trained.

We understand that physical intervention of a nature which causes injury or distress to a child may be considered under child protection or disciplinary procedures.

We recognise that touch is appropriate in the context of working with children, and all staff have been given 'Safe Practice' guidance to ensure they are clear about their professional boundary.

12. Confidentiality, Sharing Information and GDPR

All staff will understand that child protection issues warrant a high level of confidentiality, not only out of respect for the pupil and staff involved but also to ensure that information being released into the public domain does not compromise evidence.

Staff should be proactive in sharing as early as possible to help identify, assess and respond to risks or concerns about the safety and welfare of children, whether this is when problems are first emerging, or where a child is already known to local authority children's social care.

Staff should only discuss concerns with the DSL, Headteacher/Principal, or chair of governors (depending on who is the subject of the concern). That person will then decide who else needs to have the information and they will disseminate it on a 'need-to-know' basis.

However, following a number of cases where senior leaders in school had failed to act upon concerns raised by staff, Keeping Children Safe in Education emphasises that any member of staff can contact children's social care if they are concerned about a child.

Child protection information will be stored and handled in line with the Data Protection Act 2018 and HM Government Information Sharing and Advice for practitioners providing safeguarding services to children, young people, parents and carers, May 2024. School will consider where appropriate information sharing prior to the child's formal transfer to their new setting, this could also include key staff from their new setting to be invited to meetings e.g. Child Protection, Core group or Team Around a Family (with consent of parents and professionals).

At the point a child formally transfers to their new setting, their safeguarding file will be transferred securely in line with GDPR expectations as soon as possible but within 5 working days.

Information sharing is guided by the following principles:

- **Necessary and proportionate** - When taking decisions about what information to share, you should consider how much information you need to release. Not sharing more data than is necessary to be of use is a key element of the GDPR and Data Protection Act 2018, and you should consider the impact of disclosing information on the information subject, and any third parties, including anonymous referrers. Information must be proportionate to the need and level of risk.
- **Relevant** - Only information that is relevant to the purposes should be shared with those who need it. This allows others to do their job effectively and make informed decisions.
- **Adequate** - Information should be adequate for its purpose. Information should be of the right quality to ensure that it can be understood and relied upon.
- **Accurate** - Information should be accurate and up to date and should clearly distinguish between fact and opinion. If the information is historical then this should be explained.
- **Timely** - Information should be shared in a timely fashion to reduce the risk of missed opportunities to offer support and protection to a child. Timeliness is key in emergency situations and it may not be appropriate to seek consent for information sharing if it could cause delays and therefore place a child or young person at increased risk of harm. Practitioners should ensure that sufficient information is shared, as well as consider the urgency with which to share it.
- **Secure** - Wherever possible, information should be shared in an appropriate, secure way. Practitioners must always follow their organisation's policy on security for handling personal information.
- **Record** - Information sharing decisions should be recorded, whether or not the decision is taken to share. If the decision is to share, reasons should be cited including what information has been shared and with whom, in line with organisational procedures. If the decision is not to share, it is good practice to record the reasons for this decision and discuss them with the requester. In line with each organisation's own retention policy, the information should not be kept any longer than is necessary. In some rare circumstances, this may be indefinitely, but if this is the case, there should be a review process scheduled at regular intervals to ensure data is not retained where it is unnecessary to do so.

Fears about sharing information cannot be allowed to stand in the way of the need to promote the welfare and protect the safety of children.

We will ensure that images of children used within publications, publicity and on the website has written parental consent prior to any images being taken and used. This consent will be obtained in line with school's annual data collection process.

Appendices

1. Categories of Abuse

Categories of Abuse:

- Physical Abuse
- Emotional Abuse (including Domestic Abuse)
- Sexual Abuse (including child sexual exploitation)
- Neglect

Signs of Abuse in Children:

The following non-specific signs may indicate something is wrong:

- Significant change in behaviour
- Extreme anger or sadness
- Aggressive and attention-needing behaviour
- Suspicious bruises with unsatisfactory explanations
- Lack of self-esteem
- Self-injury
- Depression and/or anxiousness
- Age-inappropriate sexual behaviour

- Child Sexual Exploitation
- Criminality
- Substance abuse
- Mental health problems
- Poor attendance

Risk Indicators

The factors described in this section are frequently found in cases of child abuse. Their presence is not proof that abuse has occurred, but:

- Must be regarded as indicators of the possibility of significant harm
- Justifies the need for careful assessment and discussion with designated safeguarding lead and or deputy.
- May require consultation with and / or referral to Children's Services

The absence of such indicators does not mean that abuse or neglect has not occurred.

In an abusive relationship the child may:

- Appear frightened of the parent/s/carers
- Act in a way that is inappropriate to their age and development (though full account needs to be taken of different patterns of development and different ethnic groups)

The parent or carer may:

- Persistently avoid child health promotion services and treatment of the child's episodic illnesses
- Have unrealistic expectations of the child
- Frequently complain about/to the child and may fail to provide attention or praise (high criticism/low warmth environment)
- Be absent or misusing substances
- Persistently refuse to allow access on home visits
- Be involved as a victim or alleged perpetrator of domestic abuse

Staff should be aware of the potential risk to children when individuals, previously known or suspected to have abused children, move into the household.

Recognising Physical Abuse

The following are often regarded as indicators of concern:

- An explanation which is inconsistent with an injury
- Several different explanations provided for an injury
- Unexplained delay in seeking treatment
- The parents/carers are uninterested or undisturbed by an accident or injury
- Parents are absent without good reason when their child is presented for treatment

- Repeated presentation of minor injuries (which may represent a “cry for help” and if ignored could lead to a more serious injury)
- Family use of different doctors and A&E departments
- Reluctance to give information or mention previous injuries

Bruising

Children can have accidental bruising, but the following must be considered as non-accidental unless there is evidence, or an adequate explanation provided:

- Any bruising to a pre-crawling or pre-walking baby sometime referred to as non-mobile child
- Bruising in or around the mouth, particularly in small babies which may indicate force feeding
- Two simultaneous bruised eyes, without bruising to the forehead, (rarely accidental, though a single bruised eye can be accidental or abusive)
- Repeated or multiple bruising on the head or on sites unlikely to be injured accidentally
- Variation in colour possibly indicating injuries caused at different times
- The outline of an object used e.g. belt marks, handprints or a hairbrush
- Bruising or tears around, or behind, the earlobe/s indicating injury by pulling or twisting
- Bruising around the face
- Grasp marks on small children
- Bruising on the arms, buttocks and thighs may be an indicator of sexual abuse

Mongolian Blue Spot: Bruising in non-mobile children is rare and may indicate abuse or neglect. Birth marks, especially Mongolian Blue Spots, can mimic bruising. Mongolian Blue Spot can be identified (see below), however if in any doubt as to the cause of the bruise refer to [Southwest Child Protection Procedures](#) local authority guidance and consultation.

- Areas of skin hyperpigmentation – flat, not raised, swollen or inflamed
- Not painful to touch
- Usually present at birth/ develop soon afterwards
- Will not change in shape or colour within a few days
- Normally uniform blue/ grey in colour across the mark
- Common in African, Middle Eastern, Mediterranean and Asian children
- While most occur at the lower back and buttocks, they can appear anywhere (e.g. back of shoulder or limb). Scalp/ face rarely affected
- Can be single/ multiple, vary in size, but mostly few centimetres diameter
- Gradually fade over many year

Bite Marks

Bite marks can leave clear impressions of the teeth. Human bite marks are oval or crescent shaped. Those over 3 cm in diameter are more likely to have been caused by an adult or older child.

A medical opinion should be sought where there is any doubt over the origin of the bite.

Burns and Scalds

It can be difficult to distinguish between accidental and non-accidental burns and scalds and will always require experienced medical opinion. Any burn with a clear outline may be suspicious e.g.:

- Circular burns from cigarettes (but may be friction burns if along the bony protuberance of the spine)
- Linear burns from hot metal rods or electrical fire elements
- Burns of uniform depth over a large area
- Scalds that have a line indicating immersion or poured liquid (a child getting into hot water is his/her own accord will struggle to get out and cause splash marks)
- Old scars indicating previous burns/scalds which did not have appropriate treatment or adequate explanation

Scalds to the buttocks of a small child, particularly in the absence of burns to the feet, are indicative of dipping into a hot liquid or bath.

Fractures

Fractures may cause pain, swelling and discolouration over a bone or joint. Non-mobile children rarely sustain fractures.

There are grounds for concern if:

- The history provided is vague, non-existent or inconsistent with the fracture type
- There are associated old fractures
- Medical attention is sought after a period of delay when the fracture has caused symptoms such as swelling, pain or loss of movement
- There is an unexplained fracture in the first year of life

Scars

A large number of scars or scars of different sizes or ages, or on different parts of the body, may suggest abuse.

Recognising Emotional Abuse

Emotional abuse may be difficult to recognise, as the signs are usually behavioural rather than physical. The manifestations of emotional abuse might also indicate the presence of other kinds of abuse. The indicators of emotional abuse are often also associated with other forms of abuse.

The following may be indicators of emotional abuse:

- Developmental delay
- Abnormal attachment between a child and parent/carer e.g. anxious, indiscriminate, or no attachment
- Indiscriminate attachment or failure to attach
- Aggressive behaviour towards others
- Scapegoated within the family
- Frozen watchfulness, particularly in pre-school children
- Low self-esteem and lack of confidence
- Withdrawn or seen as a “loner” – difficulty relating to others

Recognising Signs of Sexual Abuse

Boys and girls of all ages may be sexually abused and are frequently scared to say anything due to guilt and/or fear. This is particularly difficult for a child to talk about, and full account should be taken of the cultural sensitivities of any individual child/family.

Recognition can be difficult unless the child discloses and is believed. There may be no physical signs and indications are likely to be emotional/behavioural.

Some behavioural indicators associated with this form of abuse are:

- Inappropriate sexualised conduct
- Sexually explicit behaviour, play or conversation, inappropriate to the child’s age
- Continual and inappropriate or excessive masturbation
- Self-harm (including eating disorder), self-mutilation and suicide attempts
- Involvement in prostitution or indiscriminate choice of sexual partners
- An anxious unwillingness to remove clothes e.g. for sports events (but this may be related to cultural norms or physical difficulties)

Some physical indicators associated with this form of abuse are:

- Pain or itching of genital area
- Blood on underclothes
- Pregnancy in a younger girl where the identity of the father is not disclosed
- Physical symptoms such as injuries to the genital or anal area, bruising to buttocks, abdomen and thighs, sexually transmitted disease, presence of semen on vagina, anus, external genitalia or clothing

Recognising Neglect

Evidence of neglect is built up over a period of time and can cover different aspects of parenting. Indicators include:

- Failure by parents or carers to meet the basic essential needs e.g. adequate food, clothes, warmth, hygiene and medical care
- A child seen to be listless, apathetic and irresponsible with no apparent medical cause
- Failure of child to grow within normal expected pattern, with accompanying weight loss

- Child thrives away from home environment
- Child frequently absent from school
- Child left with adults who are intoxicated or violent
- Child abandoned or left alone for excessive periods

2. Anti-Bullying/Cyberbullying

Our school policy on anti-bullying is set out in a separate document and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures. This includes all forms e.g. cyber, racist, homophobic and gender related bullying. We keep a record of known bullying incidents which is shared with and analysed by the governing body. All staff are aware that children with SEND and any actual or perceived differences are more susceptible to being bullied / victims of child abuse.

If the bullying is particularly serious, or the anti-bullying procedures are seen to be ineffective, the Headteacher and the DSL will consider implementing child protection procedures.

The subject of bullying is addressed at regular intervals in PHSE education.

3. Racist Incidents

Our policy on racist incidents is set out separately and acknowledges that repeated racist incidents or a single serious incident may lead to consideration under child protection procedures. We keep a record of racist incidents and report them to the Local Authority.

[North Somerset Identity Based Bullying Form](#)

4. Radicalisation and Extremism

The Prevent Duty for England and Wales (2015) under section 26 of the Counter-Terrorism and Security Act 2015 places a duty on education and other children's services to have due regard to the need to prevent people from being drawn into terrorism.

Extremism is the promotion or advancement of an ideology based on violence, hatred, or intolerance, that aims to:

1. negate or destroy the fundamental rights and freedoms of others; or
2. undermine, overturn or replace the UK's system of liberal parliamentary democracy and democratic rights; or
3. intentionally create a permissive environment for others to achieve the results in (1) or (2).

Some children are at risk of being radicalised; adopting beliefs and engaging in activities which are harmful, criminal, or dangerous.

School is clear that exploitation of vulnerable children and radicalisation should be viewed as a safeguarding concern and follows the Department for Education guidance for schools and childcare providers on preventing children and young people from being drawn into terrorism.

School seeks to protect children and young people against the messages of all violent extremism including, but not restricted to, those linked to Islamist ideology, or to Far Right / Neo Nazi / White Supremacist ideology, Irish Nationalist and Loyalist paramilitary groups, and extremist Animal Rights movements.

School staff receive training to help identify early signs of radicalisation and extremism. Indicators of vulnerability to radicalisation are detailed in the Appendix section.

Opportunities are provided in the curriculum to enable pupils to discuss issues of religion, ethnicity and culture and the school follows the DfE advice Promoting Fundamental British Values as part of SMSC (spiritual, moral, social and cultural education) in Schools (2014).

The school governors, the Headteacher and the Designated Safeguarding Lead (DSL) will assess the level of risk within the school and put actions in place to reduce that risk. Risk assessment may include the use of school premises by external agencies, anti-bullying policy and other issues specific to the school's profile, community and philosophy.

When any member of staff has concerns that a pupil may be at risk of radicalisation or involvement in terrorism, they should speak with the DSL. They should then follow normal safeguarding procedures. If the matter is urgent then the Police must be contacted by dialling 999. In non-urgent cases where police advice is sought then dial 101. The Department of Education has also set up a dedicated telephone helpline for staff and governors to raise concerns around Prevent (020 7340 7264).

Indicators Of Vulnerability to Radicalisation

1. Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.
2. Extremism is defined by the Government in the Prevent Strategy 2024 as:

Extremism is the promotion or advancement of an ideology based on violence, hatred or intolerance that aims to:

- negate or destroy the fundamental rights and freedoms of others; or
- undermine, overturn, or replace the UK's system of liberal parliamentary democracy and democratic rights; or
- intentionally create a permissive environment for others to achieve the results in (1) or (2).

There is no such thing as a "typical extremist": those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Pupils may become susceptible to radicalisation through a range of social, personal and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school staff can recognise those vulnerabilities.

Indicators of vulnerability include:

- Identity Crisis – the student / pupil is distanced from their cultural / religious heritage and experiences discomfort about their place in society.
- Personal Crisis – the student / pupil may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging.
- Personal Circumstances – migration; local community tensions; and events affecting the student / pupil's country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy.
- Unmet Aspirations – the student / pupil may have perceptions of injustice; a feeling of failure; rejection of civic life.
- Experiences of Criminality – which may include involvement with criminal groups, imprisonment, and poor resettlement / reintegration.
- Special Educational Need – students / pupils may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism.

More critical risk factors could include:

- Being in contact with extremist recruiters.
- Accessing violent extremist websites, especially those with a social networking element.
- Possessing or accessing violent extremist literature.
- Using extremist narratives and a global ideology to explain personal disadvantage.
- Justifying the use of violence to solve societal issues.
- Joining or seeking to join extremist organisations; and
- Significant changes to appearance and / or behaviour.
- Experiencing a high level of social isolation resulting in issues of identity crisis and / or personal crisis.

The Prevent duty ensures schools and colleges have 'due regard' to the need to prevent people from being drawn into terrorism.

Channel is the voluntary, confidential support programme which focuses on providing support at an early stage to individuals that have been identified as being vulnerable to

radicalisation. Prevent referrals may be passed to the multi-agency Channel panel to determine whether individuals require support.

[The Prevent Duty can be accessed via this link.](#) (School specific para's 141-210)

<https://www.gov.uk/government/publications/channel-guidance>

5. Domestic Abuse

Domestic abuse represents one quarter of all violent crime. It is actual or threatened physical, emotional, psychological, or sexual abuse. It involves the use of power and control by one person over another. It occurs regardless of race, ethnicity, gender, class, sexuality, age, and religion, mental or physical ability. Domestic abuse can also involve other types of abuse.

We use the term domestic abuse to reflect that a number of abusive and controlling behaviours are involved beyond violence.

How does it affect children?

Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial, or emotional. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn. In some cases, children may blame themselves for the abuse or may have had to leave the family home as a result. Children who witness domestic abuse are at risk of significant harm.

What are the signs to look out for?

Children affected by domestic abuse reflect their distress in a variety of ways. They may change their usual behaviour and become withdrawn, tired, start to wet the bed and have behavioural difficulties. They may not want to leave their house or may become reluctant to return. Others will excel, using their time in your care as a way to escape from their home life. None of these signs are exclusive to domestic abuse so when you are considering changes in behaviours and concerns about a child, think about whether domestic abuse may be a factor.

What should I do if I suspect a family is affected by domestic abuse?

Contact: <https://www.nextlinkhousing.co.uk/northsomerset/>

National Domestic Abuse Helpline Refuge runs the National Domestic Abuse Helpline, available 24 hour a day 0808 2000 247 and its website offers guidance and support for potential victims.

Refuge: <https://www.refuge.org.uk/>

6. Exploitation (including Child Sex Exploitation - CSE, Child Criminal Exploitation - CCE & County Lines)

Both CSE and CCE are forms of abuse and both occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into sexual or criminal activity. This power imbalance could be due to age, gender, sexual identity, cognitive ability, physical strength, status, and /or access to economic or other resources. The abuse could be linked to an exchange for something the victim perceives that they need or want and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator or facilitator.

The abuse can be perpetrated by individuals or groups, males or females, and adults or children (who themselves may be experiencing exploitation). The abuse can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse. It may involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

Victims are exploited even when the activity appears consensual, and it should be noted exploitation as well as being physical can be facilitated and/or take place online. The experience of girls who are criminally exploited can be different from boys, the indicators may not be the same and both boys and girls that are being criminally exploited may be at higher risk of sexual exploitation.

Any concerns that a child is being or is at risk of being sexually or criminally exploited should be passed without delay to the DSL. We are aware there is a clear link between regular school absence/truancy, CSE and CCE. Staff should consider a child to be at potential CSE/CCE risk in the case of regular school absence/truancy and make reasonable enquiries with the child and parents to assess this risk.

The DSL will use the appropriate Local Authority Assessment tool (currently the Sexual Exploitation Risk Assessment Form - SERAF) on all occasions when there is a concern that a child is being or is at risk of being sexually or criminally exploited or where indicators have been observed that are consistent with a child who is being or who is at risk of being sexually or criminally exploited. If the DSL is in any doubt, they will contact the Children's Front Door or seek a no-names consultation with a social worker.

<https://nsscp.co.uk/core-procedures>

School staff should be aware that a child often is not able to recognise the coercive nature of the abuse and does not see themselves as a victim. Therefore, the child may resent

what they perceive as interference by staff. However, staff must act on their concerns as they would for any other type of abuse.

School includes the risks of sexual and criminal exploitation in the PHSE and RSE curriculum. Pupils will be informed of the grooming process and how to protect themselves from people who may potentially be intent on causing harm. They will be supported in terms of recognising and assessing risk in relation to CSE/CCE, including online, and knowing how and where to get help.

The following list of indicators is not exhaustive or definitive, but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual or criminal exploitation.

Signs include:

- going missing from home or school
- regular school absence/truancy
- underage sexual activity
- inappropriate sexual or sexualised behaviour
- sexually risky behaviour, 'swapping' sex
- repeat sexually transmitted infections
- in girls, repeat pregnancy, abortions, miscarriage
- receiving unexplained gifts or gifts from unknown sources
- having multiple mobile phones and worrying about losing contact via mobile
- online safety concerns such as youth produced sexual imagery or being coerced into sharing explicit images.
- having unaffordable new things (clothes, mobile) or expensive habits (alcohol, drugs)
- changes in the way they dress
- going to hotels or other unusual locations to meet friends
- seen at known places of concern
- moving around the country, appearing in new towns or cities
- getting in/out of different cars driven by unknown adults
- having older boyfriends or girlfriends
- contact with known perpetrators
- involved in abusive relationships, intimidated and fearful of certain people or situations
- hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- associating with other young people involved in sexual exploitation
- recruiting other young people to exploitative situations
- truancy, exclusion, disengagement with school, opting out of education altogether
- unexplained changes in behaviour or personality (chaotic, aggressive, sexual)
- mood swings, volatile behaviour, emotional distress
- self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- drug or alcohol misuse

- getting involved in crime
- police involvement, police records
- involved in gangs, gang fights, gang membership
- injuries from physical assault, physical restraint, sexual assault.

Child Criminal Exploitation can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing other forms of acquisitive crime or threatening/committing serious violence to others

County lines is a term used to describe gangs and organised criminal networks involved in the exporting of illegal drugs (primarily crack cocaine and heroin) into one or more importing areas (within the UK), using dedicated mobile phone lines or other form of 'deal line.'

Exploitation is an integral part of the county lines offending model with children and vulnerable adults being exploited to move (and store) drugs and money. The same grooming models used to coerce, intimidate, and abuse individuals for sexual and criminal exploitation are also used for grooming vulnerable individuals for county lines.

Child Sexual Exploitation is a form of child sexual abuse. CSE can occur over time or be a one-off occurrence. CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and 17-year-olds who can legally consent to have sex.

Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or nonpenetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse including via the internet.

For further information on signs of a child's involvement in sexual exploitation:
[Child sexual exploitation: guide for practitioners](#)

For further information on County Lines: [Criminal exploitation of children and vulnerable adults: county lines guidance](#)

7. Female Genital Mutilation (FGM)

It is essential that staff are aware of FGM practices and the need to look for signs, symptoms, and other indicators of FGM. If a member of staff, in the course of their work, discovers that an act of FGM appears to have been carried out, the member of staff must report this to the Police.

Female Genital Mutilation (FGM) is illegal in England and Wales under the FGM Act 2003 ("the 2003 Act"). It is a form of child abuse and violence against women. FGM comprises all procedures involving partial or total removal of the external female genitalia for non-medical reasons.

Section 5B of the 2003 Act introduces a mandatory reporting duty which requires regulated health and social care professionals and teachers in England and Wales to report 'known' cases of FGM in under 18s which they identify in the course of their professional work to the police. The duty came into force on 31 October 2015.

What is FGM?

It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

4 types of procedure:

Type 1 Clitoridectomy – partial/total removal of clitoris

Type 2 Excision – partial/total removal of clitoris and labia minora

Type 3 Infibulation entrance to vagina is narrowed by repositioning the inner/outer labia

Type 4 all other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area.

Why is it carried out?

Belief that:

- FGM brings status/respect to the girl – social acceptance for marriage
- Preserves a girl's virginity
- Part of being a woman / rite of passage
- Upholds family honour
- Cleanses and purifies the girl
- Gives a sense of belonging to the community
- Fulfils a religious requirement
- Perpetuates a custom/tradition
- Helps girls be clean / hygienic
- Is cosmetically desirable
- Mistakenly believed to make childbirth easier

Is FGM legal?

FGM is internationally recognised as a violation of human rights of girls and women. Female Genital Mutilation (FGM) is illegal in England and Wales under the FGM Act (2003). It is a form of child abuse and violence against women. A mandatory reporting duty requires teachers to report 'known' cases of FGM in under 18s, which are identified in the course of their professional work, to the police .

The duty applies to all persons in our School who is employed or engaged to carry out 'teaching work' in the school, whether or not they have qualified teacher status. The duty applies to the individual who becomes aware of the case to make a report. It should not

be transferred to the Designated Safeguarding Lead; however the DSL should be informed.

If a teacher is informed by a girl under 18 that an act of FGM has been carried out on her, or a teacher observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18, and they have no reason to believe the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth, the teacher should personally make a report to the police force in which the girl resides by calling 101. The report should be made by the close of the next working day.

School staff are trained to be aware of risk indicators of FGM identified in this section of the Appendix. Concerns about FGM outside of the mandatory reporting duty should be reported as per our school's child protection procedures. Staff should be particularly alert to suspicions or concerns expressed by female pupils about going on a long holiday during the summer vacation period. There should also be consideration of potential risk to other girls in the family and practicing community.

Where there is a risk to life or likelihood of serious immediate harm the teacher should report the case immediately to the police, including dialling 999 if appropriate.

There are no circumstances in which a teacher or other member of staff should examine a girl.

Circumstances and occurrences that may point to FGM happening are:

- Child talking about getting ready for a special ceremony
- Family taking a long trip abroad
- Child's family being from one of the 'at risk' communities for FGM (Kenya, Somalia, Sudan, Sierra Leon, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghani, Kurdistan, Indonesia and Pakistan)
- Knowledge that the child's sibling has undergone FGM
- Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- Prolonged absence from school and other activities
- Behaviour changes on return from a holiday abroad, such as being withdrawn and appearing subdued
- Bladder or menstrual problems
- Finding it difficult to sit still and looking uncomfortable
- Complaining about pain between the legs
- Mentioning something somebody did to them that they are not allowed to talk about
- Secretive behaviour, including isolating themselves from the group
- Reluctance to take part in physical activity
- Repeated urinal tract infection
- Disclosure

8. Forced Marriage

A forced marriage is a marriage in which one or both people do not (or in cases of people with learning disabilities cannot) consent to the marriage but are coerced into it. Coercion may include physical, psychological, financial, sexual and emotional pressure. It may also involve physical or sexual violence and abuse.

Forced marriage is an appalling and indefensible practice and is recognised in the UK as a form of violence against women and men, domestic/child abuse and a serious abuse of human rights. Since June 2014 forcing someone to marry has become a criminal offence in England and Wales under the Anti-Social Behaviour, Crime and Policing Act 2014.

A forced marriage is not the same as an arranged marriage which is common in several cultures. The families of both spouses take a leading role in arranging the marriage but the choice of whether or not to accept the arrangement remains with the prospective spouses.

School staff should never attempt to intervene directly as a school or through a third party. Contact should be made with the Local Authority Childrens Front Door.

9. Honour-based Abuse

Honour based abuse (HBA) can be described as a collection of practices, which are used to control behaviour within families or other social groups to protect perceived cultural and religious beliefs and/or honour. Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their honour code.

Honour based abuse might be committed against people who.

- become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage.
- want to get out of a forced marriage.
- wear clothes or take part in activities that might not be considered traditional within a particular culture.

It is a violation of human rights and may be a form of domestic and/or sexual abuse. There is no, and cannot be, honour or justification for abusing the human rights of others.

10. One Chance Rule

All staff are aware of the 'One Chance' Rule' in relation to forced marriage, FGM and HBV. Staff recognise they may only have one chance' to speak to a pupil who is a potential victim and have just one chance to save a life.

School is aware that if the victim is not offered support following disclosure that the 'One Chance' opportunity may be lost. Therefore, all staff are aware of their responsibilities and obligations when they become aware of potential forced marriage, FGM and HBA cases.

11. Mental Health

Staff will be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Whilst school recognise that only appropriately trained professionals can diagnose mental health problems; staff are able to make day to day observations of children and identify such behaviour that may suggest they are experiencing a mental health problem or be at risk of developing one.

How traumatic Adverse Childhood Experiences and experiences of abuse and neglect can impact on a child's mental health, behaviour and education through to adolescence and adulthood will be covered in safeguarding awareness training and updates. If staff have a concern about a child's mental health that is also a safeguarding concern, they will share this with the DSL or deputy

When supporting children experiencing mental health difficulties school will explore resources such as:

[Promoting children and young people's mental health and wellbeing](#)

12. Private Fostering Arrangements

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16 or 18 if the child is disabled. Children looked after by the local authority or who are placed in residential schools, children's homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures, including British culture and children may be privately fostered at any age.

School recognises that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases. Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify children's services as soon as possible. However,

where a member of staff becomes aware that a pupil may be in a private fostering arrangement, they will raise this with the DSL and the DSL will notify Childrens Front Door of the circumstances.

13. Children in care and children who have previously experienced care

The most common reason for children experiencing care is as a result of abuse and neglect. Our school will ensure that staff have the necessary skills and understanding to keep children in care and those who have previously experienced care safe. Appropriate staff have information about a child's legal status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child and contact arrangements with birth parents or those with parental responsibility.

The Designated Teacher for children in care and the DSL, will have details of the child's social worker and the name and contact details of the Local Authority's virtual school head for children in care.

The Designated Teacher works with the virtual school head to discuss how Pupil Premium Plus funding can be best used to support the progress of children in care to ensure the school meets the needs in the child's personal education plan. The designated teacher will follow the statutory guidance 'Promoting the education of Looked After Children'.

[Promoting the education-of-looked-after-children \(Children in care\)](#)

[Virtual School Head Role extension](#)

14. Children Missing Education

Attendance, absence and exclusions are closely monitored. The school will hold more than one emergency contact number for pupils and students where reasonably possible. A child going missing or absent from education is a potential indicator of abuse and neglect, including all forms of abuse or exploitation.

The DSL/Attendance Lead will monitor unauthorised absences and take appropriate action including notifying the local authority particularly where children go missing on repeat occasions and/or are missing for periods during the school day in conjunction with 'Children Missing Education: Statutory Guidance for Local Authorities'.

[CME Statutory Guidance for Local Authorities](#)

15. Child on Child Abuse (including Sexual Violence, Sexual Harassment and HSB)

The DSL, Governing Body and Head Teacher will take due regard to Part 5, KCSiE 2024

In most instances, the conduct of pupils towards each other will be covered by our behaviour policy. However, some allegations may be of such a serious nature that they may raise safeguarding concerns. School recognises that children are capable of abusing their peers. It will not be passed off as 'banter' or 'part of growing up'. The forms of child-on-child abuse are outlined below.

- domestic abuse – an incident or pattern of actual or threatened acts of physical, sexual, financial and/or emotional abuse, perpetrated by an adolescent against a current or former dating partner regardless of gender or sexuality.
- bullying (including cyberbullying, prejudice-based and discriminatory bullying).
- child sexual exploitation – children under the age of 18 may be sexually abused in the context of exploitative relationships, contexts and situations by peers who are also under 18.
- harmful sexual behaviour – children and young people presenting with sexual behaviours that are outside of developmentally 'normative' parameters and harmful to themselves and others
- upskirting – which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm.
- serious youth violence – any offence of most serious violence or weapon enabled crime, where the victim is aged 0-19 i.e. murder, manslaughter, rape, wounding with intent and causing grievous bodily harm. 'Youth violence' is defined in the same way, but also includes assault with injury offences. All staff will receive training so that they are aware of indicators which may signal that children are at risk from or involved with serious violence and crime.
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element); and
- consensual and non-consensual sharing of nudes and semi nudes' images and or videos (also known as sexting or youth produced sexual imagery).

Preventing youth violence and gang involvement

The term child-on-child abuse can refer to all of these definitions and a child may experience one or multiple facets of abuse at any one time. Therefore, our response will cut across these definitions and capture the complex web of their experiences.

There are also different gender issues that can be prevalent when dealing with child-on-child abuse (i.e. girls being sexually touched/assaulted, or boys being subjected to initiation/hazing type violence).

School aims to reduce the likelihood of child-on-child abuse through:

- the established ethos of respect, friendship, courtesy, and kindness.
- high expectations of behaviour.
- clear consequences for unacceptable behaviour.

- providing a developmentally appropriate PSHE curriculum which develops pupils' understanding of healthy relationships, acceptable behaviour, consent and keeping themselves safe.
- systems for any pupil to raise concerns with staff, knowing that they will be listened to, valued and believed.
- robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils and those identified as being at risk.

Research indicates that young people rarely disclose child-on-child abuse and that if they do, it is likely to be to their friends. Therefore, School will also educate pupils in how to support their friends if they are concerned about them, that they should talk to a trusted adult in the school and what services they can contact for further advice.

Any concerns, disclosures, or allegations of child-on-child abuse in any form should be referred to the DSL using the school's child protection procedures as set out in this policy. Where a concern regarding child-on-child abuse has been disclosed to the DSL(s), advice and guidance may be sought from the Local Authority Children's Front Door and where it is clear a crime has been committed or there is a risk of crime being committed the Police will be contacted.

Working with external agencies the school will respond to the unacceptable behaviour. If a pupil's behaviour negatively impacts on the safety and welfare of other pupils, then safeguards will be put in place to promote the well-being of the pupils affected and the victim and perpetrator will be provided with support.

Sexual Harassment, Sexual Violence and Harmful Sexual Behaviour

The boundary between what is abusive and what is part of normal childhood or youthful experimentation can be blurred. The determination of whether behaviour is developmental, inappropriate, or abusive will hinge around the related concepts of true consent, power imbalance and exploitation. Children's sexual behaviour exists on a wide continuum, ranging from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. This may include children and young people who exhibit a range of sexually problematic behaviour such as indecent exposure, obscene telephone calls and sexual abuse against adults, peers or children. Staff should be vigilant to:

- bullying (including cyberbullying)
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm
- sexual violence and sexual harassment
- sexting (also known as youth produced sexual imagery)
- initiation/hazing type violence and rituals

- upskirting

Developmental Sexual Activity

Encompasses those actions that are to be expected from children and young people as they move from infancy through to an adult understanding of their physical, emotional and behavioural relationships with each other. Such sexual activity is essentially information gathering and experience testing. It is characterised by mutuality and of the seeking of consent.

Inappropriate Sexual Behaviour

Can be inappropriate socially, inappropriate to development, or both. In considering whether behaviour fits into this category, it is important to consider what negative effects it has on any of the parties involved and what concerns it raises about a child or young person. It should be recognised that some actions may be motivated by information seeking, but still cause significant upset, confusion, worry, physical damage, etc. It may also be that the behaviour is “acting out” which may derive from other sexual situations to which the child or young person has been exposed. If an act appears to have been inappropriate, there may still be a need for some form of behaviour management or intervention. For some children, educational inputs may be enough to address the behaviour.

Abusive sexual activity included any behaviour involving coercion, threats, aggression together with secrecy, or where one participant relies on an unequal power base. In order to more fully determine the nature of the incident the following factors should be given consideration. The presence of exploitation in terms of:

Equality – consider differentials of physical, cognitive and emotional development, power and control and authority, passive and assertive tendencies

Consent – agreement including all the following:

- Understanding that is proposed based on age, maturity, development level, functioning and experience
- Knowledge of society’s standards for what is being proposed
- Awareness of potential consequences and alternatives
- Assumption that agreements or disagreements will be respected equally
- Voluntary decision
- Mental competence

Coercion – the young perpetrator who abuses may use techniques like bribing, manipulation and emotional threats of secondary gains and losses that is loss of love, friendship, etc. Some may use physical force, brutality, or the threat of these regardless of victim resistance.

In evaluating sexual behaviour of children and young people, the above information should be used only as a guide. Further information and advice is available in the link below to the South West Child Protection Procedures.

Harmful-Sexual-Behaviour

16. Online Safety

Our pupils increasingly use electronic equipment on a daily basis to access the internet and share content and images via social media sites such as TickTock, Instagram and Snapchat.

Unfortunately, some adults and other children use these technologies to harm children. The harm might range from sending hurtful or abusive texts or emails, to grooming and enticing children to engage in sexual behaviour such as webcam photography or face-to-face meetings. Pupils may also be distressed or harmed by accessing inappropriate material such as pornographic websites or those which promote extremist behaviour, criminal activity, suicide or eating disorders.

School has an online safety policy which explains how we try to keep pupils safe in school and how we respond to online safety incidents.

School will also provide advice to parents when pupils are being asked to learn online at home and consider how best to safeguard both pupils and staff.

Pupils are taught about online safety throughout the curriculum and all staff receive online safety training which is regularly updated including an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring.

17. Youth produced sexual imagery (sexting)

The practice of children sharing images and videos via text message, email, social media or mobile messaging apps has become commonplace. However, this online technology has also given children the opportunity to produce and distribute sexual imagery in the form of photos and videos. Such imagery involving anyone under the age of 18 is illegal.

Youth produced sexual imagery refers to both images and videos where:

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18.
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult.
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18.

All incidents of this nature should be treated as a safeguarding concern and in line with the UKCIS guidance 'Sexting in schools and colleges: responding to incidents and safeguarding young people', and 'Sharing nudes and semi-nudes: how to respond to an incident'.

Cases where sexual imagery of people under 18 has been shared by adults and where sexual imagery of a person of any age has been shared by an adult to a child is child sexual abuse and should be responded to accordingly.

If a member of staff becomes aware of an incident involving youth produced sexual imagery, they should follow the child protection procedures and refer to the DSL as soon as possible.

[Sexting in schools and colleges](#) [Sharing nudes and semi-nudes: how to respond to an incident \(UCKIS\)](#)

The member of staff should confiscate the device involved and set it to flight mode or, if this is not possible, turn it off. Staff should **not view, copy, or print** the youth produced sexual imagery.

The DSL should hold an initial review meeting with appropriate school staff and subsequent interviews with the children involved (if appropriate). Parents should be informed at an early stage and involved in the process unless there is reason to believe that involving parents would put the child at risk of harm. At any point in the process if there is concern a young person has been harmed or is at risk of harm a referral should be made to the Local Authority Children's Front Door and/or the Police as appropriate.

Immediate referral at the initial review stage should be made to the Local Authority Children's Front Door/Police if:

- The incident involves an adult.
- There is good reason to believe that a young person has been coerced, blackmailed, or groomed or if there are concerns about their capacity to consent (for example, owing to special education needs).
- What you know about the imagery suggests the content depicts sexual acts which are unusual for the child's development stage or are violent.
- The imagery involves sexual acts.
- The imagery involves anyone aged 12 or under.
- There is reason to believe a child is at immediate risk of harm owing to the sharing of the imagery, for example the child is presenting as suicidal or self-harming.

If none of the above apply then the DSL will use their professional judgement to assess the risk to pupils involved and may decide, with input from the Headteacher, to respond to the incident without escalation. Such decisions will always be recorded.

In applying judgement, the DSL will consider if:

- there is a significant age difference between the sender/receiver.
- there is any coercion or encouragement beyond the sender/receiver.

- the imagery was shared and received with the knowledge of the child in the imagery.
- the child is more vulnerable than usual i.e. at risk.
- there is a significant impact on the children involved.
- the image is of a severe or extreme nature.
- the child involved understands consent.
- the situation is isolated or if the image has been more widely distributed.
- there other circumstances relating to either the sender or recipient that may add cause for concern i.e. difficult home circumstances.
- the children have been involved in incidents relating to youth produced imagery before.

If any of these circumstances are present the situation will be escalated according to our child protection procedures, including reporting to the police or the Local Authority Children's Front Door. Otherwise, the situation will be managed within the school.

The DSL will record all incidents of youth produced sexual imagery, including both the actions taken, actions not taken, reasons for doing so and the resolution in line with safeguarding recording procedure.

19. Local Services

If you are concerned that a child is being abused, or to request support you can call: 01275 888808

The North Somerset Professional consultation line for professionals only: 01275 888690

Care Connect (General Enquiries) 01275 888801 or 10275 888808

Emergency Duty Team out of hours 01454 615 165
Police non-emergency 101

For all LADO enquiries 07795 092 692

lado@n-somerset.gov.uk

[NSSCP LADO Involvement](#)

Assessment before the need for Specialist Statutory Support

Discuss the needs of the child with the family and outline the process for support
(unless you are making a child protection referral where you feel obtaining consent places the child at greater risk)

Establish which other agencies are working with the family to triangulate information to complete your assessment

Universal Needs

No need for an assessment unless additional needs are emerging and an assessment is required as preventative assessment. Complete own agency assessment and store on own agency file

All agencies have a responsibility to store the EHA in line with their own agency procedures

Additional Needs

If single/joint agency response is required, gain consent for sharing information from the family, consider a family meeting and complete own agency assessment. Store on own agency file

An agency assessment is both an ongoing assessment tool and a request for involvement for other services.
During discussions with partner agencies and in family meetings, responsibility needs to be agreed as to who will make the request to another service for ongoing support and intervention.

Intensive Needs

Lead Practitioner to be identified, Family meeting to be arranged and completion of joint assessment with the family. Request for Support Form can be completed, and support requested from the Family Wellbeing Team
Shared ownership of actions agreed

Specialist Needs

Please refer to diagram:
Requesting involvement from specialist statutory services or Children's Social Care.

Requesting involvement from Specialist Statutory Services or Children's Social Care

If you are unsure consult with your agency safeguarding lead or call the front door consultation line on **01275 888 690**

Child Protection Enquiry

Is there reasonable cause to suspect that a child is suffering or likely to suffer significant harm?

Call **01275 888 690** or **999** if there is an immediate risk to the child.

*Follow up Request for Support Form within one working day.

Child In Need

Is the child unlikely to achieve, maintain, or have the opportunity of achieving or maintaining a reasonable standard of health or development?

Is their health or development likely to be significantly impaired without the provision of such service?

Discussion with social worker at the Front Door who will review the information

If not deemed significant harm

Complete a Request for support referral form and gain consent from parents/carers.

Send to childrens.frontdoor@n-somerset.gov.uk

Triaged by social worker, contact will be made with parents, child, and partner agencies where appropriate.

Strategy Discussion

Child and Family (C&F) assessment with consent from parents/carers

Referral to Family Wellbeing Service with consent from parents/carers

No further action by statutory services
